Oriental Health Techniques

I have added manual techniques alongside homeopathy to alleviate symptoms, integrating methods from the following traditions

Shiatsu: energetic rebalancing, joint mobility, swelling reduction; also with traditional Shiatsu diagnosis

Anma: ancient Japanese Samurai massage, particularly useful for joint mobility and flexibility

Ayurvedic: relaxing, rebalancing, deflating; with precious oils

Tuina: Ancient Chinese rebalancing massage, can focus on particular issues (cervical, lower back or joint pain); or total body with oil.

Ankyo: originating mainly from Anma & Shiatsu, massage strokes and manipulations aimed at resetting the body.

Combined Massages:

Anti-cellulite: combined techniques from Ayurveda & Tuina

Various pains: combined Tuina, Ankyo, Seitai & Shiatsu techniques

Complete Facial Massage using Gua-Sha, non-invasive cupping, precious oils, Kneipp, natural creams and Shiatsu massage

NatorSystem: licensed practitioner of this patented system: combination of techniques designed specifically to realign the spinal column in cases of trauma, scoliosis, pain. Painless and effective, often resulting in permanent removal of back pain, especially if used alongside the correct homeopathic treatment. **Recommended sessions: between 5-10.**

Food Intolerance Testing: using kinesiology methods
